Dear Sirs,

We have been engaged by Bellway PLC (Bellway) to examine the greenhouse gas (GHG) emissions comprising 30,348.84 metric tonnes of CO₂ equivalent, as reported in the Bellway "Consolidated Group Emissions 2017-18 Q1-Q4 FINAL" document dated 31st August 2018.

Bellway is responsible for the preparation and presentation of the information within the Report. Our responsibility is to express a conclusion as to whether the greenhouse gas emission assertion is presented fairly in accordance with the verification criteria, which comprises:

- Department for Environment Food & Rural Affairs, Environmental Reporting Guidelines: Including mandatory greenhouse gas emissions reporting guidance, June 2013
- World Resources Institute, Greenhouse Gas Protocol, A Corporate Accounting and Reporting Standard, Revised Edition
- Companies Act 2006 (Strategic and Directors' Reports) Regulations 2013

Our duties in relation to this report are owed solely to Bellway. Accordingly, we do not accept any responsibility for any loss occasioned to any third party acting or refraining from action as a result of this report.

We completed our examination in accordance with ISO 14064-Part 3: *Specification with Guidance for the validation and verification of greenhouse gas assertions*.

As such, we planned and performed our examination in order to provide reasonable, rather than absolute assurance, with respect to the greenhouse gas emission assertion conformance to the verification criteria. We believe our work provides a reasonable basis for our conclusion.

Based on our examination, in our opinion the greenhouse gas emission assertion presented in the "Consolidated Group Emissions 2017-18 Q1-Q4 FINAL" have been presented fairly in accordance with the relevant criteria, in all material respects.

A handwritten signature in blue ink, appearing to read "Ian Douglas", with a stylized flourish at the end.
